

My site runs on a PostgreSQL database and the gems used include CarrierWave, MailForm and Fog. The main layout features an SVG text effect.

Firefox

A screenshot of the kohrVid website displayed in a Firefox browser window. The page has a dark background featuring a bird perched on grass. The header includes the "kohrVid" logo, a user icon, and a "Menu" button. A central text box contains a welcome message and a bio. The footer contains copyright information.

Hi, my name's Jess.

I'm the sole developer at kohrVid, an up-and-coming web development firm based in London. At present, I specialise in Ruby on Rails and am proficient in HTML, CSS, JavaScript, jQuery and CoffeeScript. Most of my previous work can be found on my [GitHub](#) page. I'm available for freelance projects so please [get in touch](#) if you're interested.
